- Develop critical professional skills that lay the foundation for a strong career in the IT industry

Why Juniper Networks?

Juniper Networks challenges the status quo with innovative products, solutions and services critical to businesses by transforming the economics of networking in the connected world. We are challenging the limits of silicon, systems and software for unified environments and open architectures in our routing, switching and security solutions.

Be part of the team

At Juniper Networks we are proud of our technical heritage and our teams of highly talented and ambitious technical experts who work daily with the world's largest companies including Vodafone, Telefónica and Deutsche Telecom. We design, build and support some of the world's most complex networks to deliver services to millions of businesses and their customers globally.

Our mission: Build more than a network.

What Juniper Networks has in store for YOU

We invite YOU to become part of a multinational team and gain diverse and wide working experience.

YOU will:

- Rotate teams and learn from customer-facing engineering experts
- Deepen your Juniper technology knowledge via hands-on activities and gain customer interaction

We invite YOU to make an impact now

- Real life hands on projects from day one
- Work that matters and makes an impact

We want YOU to be part of an empowering and inspiring community of students and graduates

- Our interns and graduate community is empowering new ways of communication, accountability and trust
- You are the future, and we want to share our knowledge with YOU

We invest in YOU from day one

- We believe in YOU, will invest our time and resources in YOU
- We offer YOU business, professional skills and technical training

We offer flexible start dates and program duration

- We offer flexible start dates and program duration
- The duration of the programs can vary from the minimum of 3 months up to 12-18 months and can be tailored to your training requirements and wishes
- Opportunities are available Europe wide

About Juniper Networks

Juniper Networks challenges the status quo with innovative products, solutions and services critical to businesses by transforming the economics of networking in the connected world.

Be part of the team

We are a leader in network automation, performance and creation. We create highly scalable, secure and cost-effective networks for unprecedented choice, agility, efficiency and value. We empower customers to unlock new business models and capitalize on new growth opportunities. We do so by challenging conventions to define what's possible, not simply what's next. Every product, solution and person who works at Juniper is driving business transformation that underpins the connected world.

What other young professionals say about our intern and graduate programs

"I was impressed with the personal touch of getting to meet some of my coworkers and mentors before the internship began."

"A very healthy work culture where you don't feel the pressure to perform, but instead you feel the urge to perform."

"We got to work with teams around the world and execute marketing campaigns in countries with different languages and cultures."
